Walgreens Respects Your Right To Choose How We Contact You

To help our customers stay current with their prescriptions, the Walgreens Family of Companies sends texts or automated phone calls to customers regarding their prescriptions using phone numbers on the customer's pharmacy record. We also may provide other health related notifications, offers and reminders.

Some important reasons Walgreens may call or text include:

- Prescriptions delayed
- Need updated insurance information
- Prescription ready for pick up or to be shipped
- Other health related notifications, such as availability of immunizations.

Can we use automation to call or text about your prescriptions and provide other health notifications, offers and reminders?

No, don't call or text me

Yes, allow calls or texts

Agreement to receive these calls and text messages is not required to purchase goods or services. I am 18 and have the authority to provide consent. I agree that the Walgreens Family of Companies may use automation to call or text phone numbers on my patient record with pharmacy and health care related offers, notifications and reminders.

Accept Your Notice of Privacy Practices

Under the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), Walgreens is required to provide you with a Notice of Privacy Practices that describes how we may use your information for treatment, payment and other purposes and that details your rights regarding the privacy of your health and medical information. We are also required to request that you acknowledge our delivery of this notice to you.

Notice of Privacy Practices

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

Select up to 4 vaccines

Below are the vaccines the patient can schedule at Walgreens based on their age and location.

CDC says it's safe to get multiple vaccines at once.

COVID-19

Stay up to date and get the [bivalent booster](#). CDC recommends a second bivalent booster for adults age 65+ and the immunocompromised.

Shingles (Shingrix)

Recommended that adults age 50+ get 2 doses, 2-6 months apart. Dose 2 may be scheduled 56 days after receiving dose 1.

Pneumonia

Recommended for all adults age 65+ and adults age 19-64 with [certain health conditions or risk factors](#).

Tdap (Whooping Cough)

Hepatitis B

Flu

This vaccine is seasonal. Appointments will be available again in late summer.

Chickenpox (Varicella)

HPV (Human Papillomavirus)

Hepatitis A

Hepatitis A / Hepatitis B (Combination)

MMR (Measles, Mumps and Rubella)

Meningitis

Tetanus-Diphtheria

Don't see the vaccine the patient needs? Based on their age and restrictions in their state, Walgreens can't administer some vaccines. Contact their health care provider with questions.

If more than 4 vaccines are needed, please begin by selecting 4 vaccines above and then speak to the pharmacist prior to the appointment about the additional vaccinations needed.
